TESTIMONY FOR COILS AUSTRALIA PTY LIMITED

Noske-Kaeser New Zealand Limited is a global provider of specialised HVAC systems and equipment for specific applications requiring either custom design or the ability to withstand particular environmental conditions, e.g. shock, vibration, corrosive atmospheres etc.

Noske-Kaeser has sourced fin and tube heat exchangers from Coils Australia since 2003 for incorporation into a varied range of air-conditioning units for both the Rail and Navy markets.

Coils Australia are a valuable component of Noske-Kaeser's global supply chain delivering technical expertise in the area of coil selections and quality product in very short delivery time frames. Throughout the process there is a clear communication path for all supply related matters.

Regards

Martin Mallon
General Manager
Noske-Kaeser New Zealand Limited
